WORK EXPERIENCE

Software Engineer · Explore Crest *Canada | Remote | Apr 2025 – Present*

- Architected scalable React Native features across iOS and Android using JavaScript and TypeScript, reducing crash rate and improving cross-platform stability in production.
- Integrated REST APIs and SignalR real-time services, enabling low-latency synchronized experiences for active users.
- Optimized Redux Toolkit state management, resolving critical performance bottlenecks and improving screen load times.
- Implemented CI/CD pipelines with GitHub Actions and EAS Build, enabling OTA updates and faster, more scalable release cycles.

Software Engineer · Diligent Infotech Pvt. Ltd. *Hoshiarpur, India | Feb 2023 – Aug 2024*

- Boosted data processing speed by 40% by re-engineering core algorithms across multiple production React Native applications.
- Refactored legacy React Native codebase, reducing bug reports by 20% and improving long-term maintainability.
- Delivered full multilingual support (EN, AR, RU, HE) with complete RTL/LTR layout handling using i18next.

KEY PROJECTS

Drifthome (iOS / Android) [LINK](#) · React Native · TypeScript · Reanimated · Gesture Handler · SignalR · Google Maps · Next.js

- Built Tinder-style swipe property browsing with custom Reanimated animations and integrated SignalR real-time chat, boosting user engagement 80% and interaction rates 90%.

Squad Accountability Tracker (iOS / Android) [LINK](#) · React Native · Firebase · OpenAI API · Stream Chat

- Developed AI-powered accountability features using the OpenAI API; integrated Stream Chat for real-time group messaging and Firebase for cross-device sync, improving goal completion rates.

Ecoaging (iOS / Android) [LINK](#) · React Native · Firebase · i18next · Push Notifications

- Built a gamified multilingual platform with quizzes, badges, push notifications, and i18next localization, achieving an 80% improvement in user retention.

Theropay — Merchant & Admin Portal [LINK](#) · React.js · Next.js · Tailwind CSS

- Developed a role-based payment dashboard with secure approval workflows and real-time data handling, improving operational efficiency for merchant and admin teams.
